

DESTEC

CAPABILITY STATEMENT

COMPANY SUMMARY

Destec delivers contract crushing, screening, and processing solutions, along with site services and mine site development expertise, to the metals and mining industry in Western Australia.

SUSTAINABILITY SAFETY AND COMMUNITY

We ensure the sustainability of our business operations by integrating safety, environmental protection, community wellbeing, and ethical practices into our core activities.

CORE STRENGTHS

Our vertically integrated project delivery model offers a significant advantage with its comprehensive end-to-end solutions, covering everything from project conceptualization to commissioning. By tailoring designs to optimize both capital and operational investments, we ensure that client specifications are meticulously met.

PEOPLE

We succeed because we recognize the strength and talents delivered from our people.

STATE-OF-THE-ART EQUIPMENT

We own comprehensive crushing and screening equipment, including a variety of support and ancillary machinery.

SAFETY IS A CORE VALUE

We foster a high-performing safety culture by empowering and educating our team to uphold rigorous safety standards.

COMMUNITY ENGAGEMENT

We build stronger communities by fostering connections and empowering individuals to create a lasting impact.

DIFFERENTIATORS

What sets us apart from our competitors?

Our robust project delivery capabilities and in-house expertise have fostered strong relationships with key players in the mining sector. We deliver significant value throughout the entire project life cycle.

COMPETITIVE ADVANTAGES

- ✓ Design, build, own and operate processing and materials handling facilities
- ✓ Pit-to-port mining and processing solutions
- ✓ Fabrication services
- ✓ Decommissioning and deconstruction services
- ✓ Material analysis and assay services
- ✓ Infrastructure, plant and equipment sales

OUR PROJECTS

Maximizing value, ensuring safety; our expertise in processing and mining solutions. We deliver contract crushing, screening, and processing solutions, along with site services and mine site development expertise, to the metals and mining industry in Western Australia.

PROCESSING AND MATERIALS HANDLING

We provide customized Build, Own, Operate (BOO) solutions designed to meet the specific needs of our clients and partners.

FABRICATION

Our in-house manufacturing capabilities enable us to deliver innovative and cost-effective fabrication and assembly solutions for our projects.

PIT-TO-PORT SOLUTIONS

Our expertise spans the full mining lifecycle, offering comprehensive capital infrastructure and life-of-mine operational services.
